

SHOW YOUR SOCIAL RESPONSIBILITY WITH INTERNATIONAL OH&S LEGAL REGISTERS

WHENEVER A NEW PROJECT OR BUSINESS IS STARTED IN A COUNTRY, ORGANIZATIONS MAY FACE OPERATIONAL AND LEGAL BOUNDARIES WITH REGARD TO THE LOCAL HEALTH & SAFETY REGULATIONS. SINCE 1989, TOP HAS A PROVEN TRACK RECORD AND BROAD EXPERIENCE IN INTERNATIONAL BUSINESS IN OCCUPATIONAL HEALTH, SAFETY AND ENVIRONMENT. TOGETHER WITH OUR INTERNATIONAL NETWORK OF QA OH&S EXPERTS, WE HAVE TRANSLATED OUR KNOWLEDGE INTO DYNAMIC LEGAL REGISTERS FOR OVER 50+ COUNTRIES.

DYNAMIC LEGAL REGISTERS

Our OH&S legal registers cover a local country's OH&S legislation, which can be further customised based on industry, general & local companies business activities and identified OH&S risks .

By means of assessment general and/or local based company activities and OH&S risks will be identified. Based on the outcome an inventory will be made of applicable legislation and subdivided per OH&S topic.

Legislations will be explained briefly and specific or noteworthy articles will be shown highlighted.

It will all be put together and presented in a clear and easy-to-use MS Excel based register. For the user it will be clear what legislation is applicable. This will increase awareness and decrease the risk of non-compliance.

“OUR CHOICE TO WORK WITH TOP WAS BASED ON OUR NEED FOR A PARTNER WITH A PROVEN INTERNATIONAL TRACK RECORD IN HEALTH & SAFETY, WHO WE COULD TRUST TO PUSH THE BOUNDARIES AND CHALLENGE THE ACCEPTED NORMS AND RESTRICTIONS WHEN WORKING GLOBALLY”

Simon Head , Head of Health & Safety Fujitsu

IMPLEMENTATION

The ultimate impact of an effective legal register lies in the knowledge and practical application on the operational level. This is where actual compliance is proven. We ensure compliance through training, guiding and effective compliance checks.

TRAINING

TOP can offer implementation guidance and training at all organizational levels and in the local language.

PREFER TO WORK ONLINE, STAY TUNED.....

TOP is finalizing an online tool with checklists. Easy to use by company representatives. Compliance checks can be done easily and do not consume a lot of time. Graphs in the dashboard show strengths and weaknesses at all time which makes it possible to intervene fast and without time consuming data analysis. The dashboard is also suitable to identify trends and scores in relation to KPI's.

MAINTENANCE

TOP carries out customized maintenance on new and amended legislation, expected amendments, etc. This is directly processed in the legal registers, ensuring that our clients can make use of an up to date register at all times.

UP TO DATE OH&S LEGAL REGISTERS

IMPLEMENTATION GUIDANCE & TRAINING

ONLINE DASHBOARD & COMPLIANCE CHECK

"WE COULD NOT FIND A LEGAL REGISTER THAT COVERED THE COUNTRIES AND DEPTH OF INFORMATION WE NEEDED TO CREATE THE BASELINE STANDARDS. WE JUST COULDN'T SAY THAT WE WERE CONFIDENT THAT WE WERE COVERING ALL ASPECTS OF LAW"
